Myers-Briggs Interpretation Online

CPP, Inc. has released MBTI®Complete, a Myers-Briggs Type Indicator instrument available online and packaged with interactive basic interpretation.

The MBTI allows participants to identify their preferences based on four dichotomies: extraversion/introversion, sensing/intuition, thinking/feeling, and judging/perceiving, which are then sorted into one of 16 possible four-letter types.

The product, which can be used to aid in team-building, conflict resolution, communication and leadership development, is designed to increase training effectiveness by automating participants' introduction to personality type.

Price is \$41.95 per employee for 100 employees or more.

CPP, Inc., Mountain View, Calif.
